The amendment filed 12/26/02 is acknowledged. Claims 18-21 and 23 are presented for examination.

Newly submitted claims 19 and 23 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

I. Claims 18, 20 and 21 directed to a mutant strain of *Bacillus thuringiensis*, classified in Class 435, subclass 252.5, for example.

II. Claims 19 and 23 drawn to a factor produced by *Bacillus*, classified variously according to the factor produced.

Each of groups I and II is directed to separate and distinct inventions, Group I is directed to mutant *Bacillus*, and group II is directed to a chemical compound or substance. The products of groups I and II would be expected to have distinct morphological, functional and physiological properties as evidenced by divergent classification, process of making and process of using.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 19 and 23 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 18, 20 and 21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 18, 20 and 21 are vague, indefinite and confusing in the recitation "**a** *Bacillus thuringiensis* subsp. *kurstaki* strain EMCC 0086", since *Bacillus thuringiensis* subsp. *kurstaki* strain EMCC 0086 is a single strain.

Claims 18, 20 and 21 would be allowable upon resolution of the 35 U.S.C §112 issue.

No claim is allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
